

THE SCHOLAR

PLANAR SAGE

Designed by Kyle Grant

CLASS FEATURES

As a scholar you gain the following class features.

HIT POINTS

Hit Dice. 1d8 per scholar level

Hit Points at 1st Level: 8 + your Constitution modifier

Hit Points at Higher Levels: 1d8 (or 5) + your Constitution modifier per scholar level after 1st

PROFICIENCIES

Armor: Light armor

Weapons: Simple weapons, hand crossbows, heavy crossbows, shortswords

Tools: Any two

Saving Throws: Intelligence

Skills: Choose four from Animal Handling, History, Insight, Investigation, Medicine, Nature, Perception, Performance, Persuasion, Religion, and Survival

EQUIPMENT

You start with the following equipment, in addition to the equipment granted by your background.

- (a) a shortsword, (b) any simple weapon, or (c) any martial weapon (if proficient)
- (a) leather armor or (b) scale armor (if proficient)
- (a) a light crossbow and 20 bolts or (b) any simple weapon
- (a) a scholar's pack or (b) an explorer's pack

Alternatively, you can purchase starting equipment with a starting wealth of 4d4 x 10 gp.

The Scholar

17	+6	Improved Keen Intellect (d12)	9
18	+6	Pursuit Feature	9
19	+6	Ability Score Improvement	9
20	+6	True Genius	9

KEEN INTELLECT

At first level, you gain the ability to use your quick wits to your advantage both in and out of combat. You learn gambits that are fueled by special dice called intellect dice. Gambits allow you to bring your mind to bear in order to solve problems, and to create and exploit opportunities that others cannot see.

Gambits. You know all the gambits listed under "Gambits" below, and may learn another at a later level, unique to your Pursuit. Many gambits enhance an attack in some way. You can use only one gambit per attack.

Intellect Dice. You have a number of intellect dice equal to your Intelligence modifier (a minimum of one), which are d8s. An intellect die is expended when you use a gambit, and you regain all expended intellect dice when you finish a long rest.

Saving Throws. Some gambits require your target to make a saving throw to resist its effects. The saving throw DC is calculated as follows:

$$\text{Gambit save DC} = 8 + \text{your proficiency bonus} + \text{your Intelligence modifier}$$

GAMBITS

The gambits are presented in alphabetical order.

Agitating Attack. When you hit a creature with a weapon attack, you can expend one intellect die to attempt to force the creature to lose focus. You add the intellect die to the damage roll and the target must make a Wisdom saving throw. On a failed save, the target has disadvantage on the next Intelligence, Wisdom, or Charisma saving throw it makes before the end of your next turn.

Defensive Posture. You can expend one intellect die and take the Dodge action as a bonus action on your turn. If a creature misses you with an attack before the start of your next turn, you can use your reaction to make a weapon attack against the creature if it is within range, adding the intellect die to the attack roll.

Foiling Strike. When a creature you can see is forced to make a Strength, Dexterity, or Constitution saving throw, you can expend an intellect die and use your reaction to make a weapon attack against the creature if it is within range. If the attack hits, you add the intellect die to the damage roll of the attack, and the target has disadvantage on the saving throw.

Sage Advice. When you or another creature is preparing to take an action that requires an ability check, you can expend an intellect die and use an action to analyze the situation and give advice based on your observations and deductions. Add the number rolled on the intellect die to any creature who can hear and understand you who attempts that action within the next minute, including yourself.

Unsticky the Situation. When you fail a saving throw, you can expend an intellect die and add it to the roll, potentially turning it into a success.

BONUS PROFICIENCIES

You are proficient in Wisdom saving throws if scholar is your first class.

Additionally, at 1st level you become proficient in either Arcana or Religion. Your proficiency bonus is doubled for any ability check you make that uses that skill. You also learn one of the following languages of your choice: abyssal, celestial, infernal, primordial, or sylvan.

PRACTICA

Your studies have exposed you to research and theory on any number of subjects, but applying that knowledge to the real world requires an extra level of dedication.

Beginning at 2nd level, you master three practica of your choice. Your practica options are detailed at the end of the class description. When you gain certain scholar levels, you master new practica of your choice, as shown in the Practica column of the Scholar table.

Additionally, when you gain a level in this class, you can choose one of the practica you know and replace it with another for which you meet the requirements. You cannot replace practica that allow you to learn a language.

Planar Sage vs Wizard

On the surface, the Planar Sage shares much in common with the wizard. They both record their spells in spellbooks and rely on their Intelligence to cast spells. But they diverge in important ways.

The Planar Sage is at once more focused and more generalized than the wizard. The Sage studies magic more holistically, exploring not just the arcane, but the divine and the elemental as well. They sacrifice the heights of power available to wizards and other dedicated casters like clerics and druids, but tap all sources of magical power equally.

Besides a scholarly interest in studying magic in all its facets, this broad approach is in service to the Planar Sage's chosen field of study: the planes and the extraordinary beings that inhabit them.

Planar Sage Spellcasting

Scholar Level	Cantrips Known	—Spell Slots per Spell Level—			
		1st	2nd	3rd	4th
3rd	3	2	—	—	—
4th	3	3	—	—	—
5th	3	3	—	—	—

13th	5	4	3	2	—
14th	5	4	3	2	—
15th	5	4	3	2	—
16th	5	4	3	3	—
17th	5	4	3	3	—
18th	5	4	3	3	—
19th	5	4	3	3	1
20th	5	4	3	3	1

SPELLCASTING

When you reach 3rd level, you augment your knowledge with the ability to cast spells. See chapter 10 of the Player's Handbook for the general rules of spellcasting. The Planar Sage's spell list is at the end of the pursuit description.

Cantrips. You learn three cantrips of your choice from the Planar Sage's spell list. You learn additional cantrips from the Planar Sage's spell list at 6th and 13th level.

Spellbook. At 3rd level, once you acquire your first spellbook, you can scribe into it three 1st-level Planar Sage spells of your choice.

Preparing and Casting Spells. The Planar Sage Spellcasting table shows how many spell slots you have to cast your spells of 1st level and higher. To cast one of these spells, you must expend a slot of the spell's level or higher. You regain all expended spell slots when you finish a long rest.

You prepare the list of Planar Sage spells that are available for you to cast. To do so, choose a number of Planar Sage spells from your spellbook equal to your Intelligence modifier + half your scholar level (minimum of one spell). The spells must be of a level for you have spell slots.

For example, if you're a 7th-level scholar, you have four 1st-level and two 2nd-level spell slots. With an Intelligence of 16, your list of prepared spells can include six spells of 1st or 2nd level, in any combination, chosen from your spellbook. If you prepare the 1st-level spell **protection from evil and good**, you can cast it using a 1st-level or a 2nd-level slot. Casting the spell doesn't remove it from your list of prepared spells.

You can change your list of prepared spells when you finish a long rest. Preparing a new list of Planar Sage spells requires time spent studying your spellbook and memorizing the incantations and gestures you must make to cast the

spell: at least 1 minute per spell level for each spell on your list.

Spellcasting Ability. Intelligence is your spellcasting ability for your Planar Sage spells, since you learn your spells through study and memorization. You use your Intelligence whenever a spell refers to your spellcasting ability. In addition, you use your Intelligence modifier when setting the saving throw DC for a Planar Sage spell you cast and when making an attack roll with one.

Spell save DC = 8 + your proficiency bonus +
your Intelligence modifier

Spell attack modifier = your proficiency bonus +
your Intelligence modifier

Spellcasting Focus. You can use an arcane focus or a holy symbol (found in chapter 5 of the Player's Handbook) for your Planar Sage spells.

Learning Spells of 1st-Level and Higher. Each time you gain a scholar level, you can add one Planar Sage spell of your choice to your spellbook. This spell must be of a level for which you have spell slots, as shown on the Planar Sage Spellcasting table. On your adventures, you might find other spells that you can add to your spellbook. See the "Your Spellbook sidebar in the wizard description in the Player's Handbook.

ABILITY SCORE IMPROVEMENT

When you reach 4th level and again at 8th, 10th, 12th, 16th, and 19th level, you can increase one ability score of your choice by 2, or you can increase two ability scores of your choice by 1. As normal, you can't increase an ability score above 20 using this feature.

BOUNDLESS INTELLECT

Beginning when you reach 5th level, you regain all of your expended intellect dice when you finish a short or long rest.

PLANES HUNTER

At 6th level, you learn the planes hunter gambit. When you target a celestial, elemental, fey, fiend, or undead creature with an attack, you can expend an intellect die and add it to the attack roll. Alternatively, if you cast a spell or use a scholar feature that forces a creature of one of those types to make a saving throw, you can expend an intellect die and subtract it from the creature's saving throw.

In either case, you must expend the intellect die before the attack or saving throw is rolled.

FIELD RESEARCH

Starting at 7th level, if you spend at least 1 minute observing or interacting with another creature outside of combat, you can learn information about its capabilities. Choose a reference creature of the same type that you have seen, and the DM tells you if the creature you are researching is equal, superior, or inferior to the reference creature in regard to two of the following characteristics of your choice:

- Strength score
- Dexterity score
- Constitution score
- Intelligence score

- Armor Class
- Maximum hit points
- Total class levels (if any)

MOMENT OF GENIUS

Beginning at 9th level, when you use a gambit you can choose to take the highest value on your intellect die instead of rolling. The intellect die is still expended as normal.

Once you use this feature, you cannot do so again until you finish a long rest.

IMPROVED KEEN INTELLECT

At 11th level, your intellect dice turn into d10s. At 17th level, they turn into d12s.

ADVANCED PLANAR MAGIC

When you reach 13th level, you add the *plane shift* spell and one other spell from the list below to your spellbook. You can cast each of these spells once without using a spell slot. You must finish a long rest before you can do so again.

Choose one of the following: *dispel evil and good*, *planar binding*, *forbiddance*, or *planar ally*.

CLEAR MIND

Beginning at 14th level, you can use your action to end one effect on yourself that is causing you to be charmed or frightened.

ANALYTICAL MIND

At 15th level, you can apply your Intelligence modifier instead of your Wisdom modifier to Wisdom ability checks and Wisdom saving throws.

PLANES TRIPPER

When you reach 18th level, you add either the *astral projection* or *gate* spell to your spellbook. You can cast this spell once without using a spell slot. You must finish a long rest before you can do so again.

TRUE GENIUS

At 20th level, your dedication to developing your mind has honed you into a true genius. The sum total of your experiences lends you an incisiveness that is unmatched. Your Intelligence score increases by 4 and your maximum Intelligence increases to 24.

PRACTICA

If a practicum has prerequisites, you must meet them to learn it. You can learn the practicum at the same time that you meet its prerequisites. A level prerequisite for a practicum refers to scholar level, not character level.

ARTIST

You gain proficiency with three tools of your choice. If you are already proficient with one of these tools, you instead add

double your proficiency bonus to ability checks you make to use that tool.

COMBAT ASSESSMENT

Prerequisite: 14th level

You can use a limited form of field research while in combat. As a bonus action on your turn, you can learn one piece of information about an enemy that you can see as per the field research feature. If you can see the reference creature, you can choose current hit points as the characteristic.

CUNNING AIM

You can use Intelligence instead of Strength for the attack and damage rolls of weapons made with a light weapon, quarterstaff, or unarmed strike. If you are an Inventor, you can also apply this benefit to any ranged weapon invention that you invent.

CRIPPLING BLOW

Prerequisite: 17th level

You know how to turn a perfect strike into a devastating attack. When you roll maximum damage on a weapon's damage dice, double the damage of your attack against the creature.

DEFT IMPROVISER

You gain proficiency with improvised weapons, and half-cover functions as well for you as three-quarters cover.

DELIBERATE STEP

Prerequisite: 5th level

Your movement speed increases by 10 feet, and nonmagical difficult terrain no longer slows your movement.

DOGGED

When exhausted, you suffer the effects as if your level of exhaustion is one lower. You suffer no negative effects from a single level of exhaustion. Additionally, you cannot be stunned.

EXTRA ATTACK

Prerequisite: 5th level

You can attack twice, instead of once, when you take the attack action.

EXTRAPLANAR CONTACT

Prerequisite: 9th level, Planar Sage pursuit

You add the *contact other plane* spell to your spellbook. You can cast it as normal once, and then you must finish a long rest before you can do so again. You may also cast it as a ritual without requiring a rest afterwards.

EXTRAPLANAR DETECTION

Prerequisite: 5th level, Planar Sage pursuit

You add the detect evil and good spell to your spellbook, if it does not already have it. You can cast this spell at will and it does not count against your number of prepared spells.

EXTRAPLANAR DIPLOMACY

Prerequisite: Planar Sage pursuit

When you learn this practicum select one of the following types of extraplanar creatures: celestials, elementals, fey, or

fiends. You have advantage on Charisma checks made to interact with creatures of that type.

EXTRAPLANAR SUMMONING

Prerequisite: 14th level, Planar Sage pursuit

When you cast a conjuration spell that allows you to summon celestials, elementals, fey, or fiends, you can cast that spell as if you had used a spell slot two levels higher than the level you actually use. For example, you can cast the *conjure animals* spell with a 3rd-level spell slot as if you had used a 5th-level spell slot, even if you have no 5th-level spell slots.

Once you use this feature, you cannot do so again until you finish a long rest.

HARDY

Prerequisite: 11th level

You can ignore the effects of poison and disease. If you become poisoned or diseased and this practicum is replaced before the condition is removed, you immediately begin to suffer its effects.

COMPREHENSIVE CARE

You gain proficiency with the Insight and Medicine skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, when you make an ability check to determine the physical or psychological state of a creature, if your roll exceeds 20 you have advantage on the next Charisma ability check you make to interact with that creature in the next ten minutes. You gain this benefit whether or not the triggering ability check was considered a success or a failure.

INCISIVE STRIKES

Prerequisite: 11th level

When you hit a creature with a weapon attack, the creature takes extra damage equal to your Intelligence modifier (minimum of 1).

INFALLIBLE EXPERTISE

Prerequisite: 11th level

When you make an ability check that lets you add half your proficiency bonus or your full proficiency bonus, you can treat a d20 roll of 4 or lower as a 5. When you make an ability check that lets you add double your proficiency bonus, you can treat a d20 roll of 9 or lower as a 10.

KINAESTHETICS

You gain proficiency with the Acrobatics and Athletics skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, you when you learn this practicum choose either climbing or swimming. That form of movement no longer costs you extra movement.

LINGUIST

You learn to speak, read, and write three languages of your choice. You may learn this practicum multiple times, selecting different languages each time. This practicum cannot be selected with the Explorer's adaptable feature.

MACHIAVELLIAN

You gain proficiency with the Deception and Intimidation skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, you have advantage on saving throws made to resist being charmed.

NATURALIST

You gain proficiency with the Animal Handling and Survival skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill. Additionally, you can read the basic mood and intent of beasts. You learn its emotional state, whether it is affected by magic of any sort, its short-term needs (such as food or safety), and actions you can take (if any) to persuade it not to attack. You cannot use this ability against a creature that you have attacked within the past 10 minutes.

ONE MOVE AHEAD

Prerequisite: 17th level, Incisive Strikes practicum

Once per turn, you can use incisive strikes to add your Intelligence modifier to the attack roll instead of the damage roll when you make a weapon attack. You must choose to use this practicum before making your attack roll.

PSYCHOLOGICAL PROFILE

Prerequisite: 11th level

If you spend at least one minute conversing with a creature or observing it in a social situation, you can analyze its speech and body language to determine how best to interact with it. The DM tells you whether Deception, Intimidation, Performance, or Persuasion is most likely to have a favorable impact on the creature's disposition toward you. For the next hour, you have advantage on checks in that skill directed at the creature. Once you use this feature, you can't use it again until you finish a short or long rest.

RENAISSANCE MAN

You gain proficiency with one type of artisan's tools and one instrument or gaming set of your choice. You learn to speak, read, and write one language of your choice. You may learn this practicum multiple times, selecting different options each time. This practicum cannot be selected with the Explorer's adaptable feature.

RHETORIC

You gain proficiency with the Performance and Persuasion skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, if spend at least ten minutes speaking or performing, allies of your choice (up to twice your Intelligence modifier) gain a d6 which they can add to the next ability check, attack roll, or saving throw they make. A creature can only benefit from this ability once per short rest.

SCHOLASTICS

You gain proficiency with two of the following skills of your choice: Arcana, History, Nature, and Religion. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, if you fail an ability check that uses one of your chosen skills, you can make the check once more during your next short or long rest.

You can learn this practicum twice, selecting different skills each time.

SPATIAL AWARENESS

You gain proficiency with the Perception and Investigation skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, you can perfectly recall any path you have traveled since learning this practicum.

TRADECRAFT

You gain proficiency with the Sleight of Hand and Stealth skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, you gain proficiency with thieves' tools.

TRAIL MEDICINE

As an action, you can expend one charge of healer's kit or one treatment point from your medicine kit to grant a willing creature temporary hit points equal to your scholar level. Once a creature has gained temporary hit points from this feature, it cannot do so again until it finishes a long rest.

UNIVERSAL LINGUISTICS

Prerequisite: 14th level

You can communicate and understand simple ideas and concepts when speaking to creatures that have an Intelligence score of 7 or higher, even if you do not share a language. You can also glean basic information from written samples of languages that you do not know. The DM may have you roll an Intelligence check if you attempt to read, communicate, or understand more complex ideas in an unknown language. At the DM's discretion, failure may result in misinterpretation.

VIGILANT

Prerequisite: 7th level

You add your Intelligence modifier to your initiative rolls, and your passive Perception score gains a bonus equal to your Intelligence modifier for the purposes of determining whether or not you are surprised.

PLANAR SAGE SPELLS

Cantrips (0 Level)

Control flames (transmutation)
