

AFFECT MIND

At-will universal power

Casting Time: 1 action

Range: 30 feet

Duration: Concentration, up to 1 minute

Choose a target within range that isn't hostile toward you. The target must make a **Wisdom saving throw**. On a failed save, you have advantage on all Charisma checks directed at that target. On a successful save, the creature realizes that you tried to use the Force to influence its mood and becomes hostile toward you. A creature prone to violence might attack you. Another creature might seek retribution in other ways (at the DM's discretion), depending on the nature of your interaction with it. This power has no effect on droids or constructs.

AFFLICTION

2nd-level dark side power

Prerequisite: Slow

Casting Time: 1 action

Range: 30 feet

Duration: Concentration, up to 1 minute

Choose a creature that you can see within range. That creature must make a **Constitution saving throw**. On a failed save, the target's speed is halved, it takes a -2 penalty to AC and Dexterity saving throws, and it can't use reactions. On its turn, it can use either an action or a bonus action, not both. Regardless of the creature's abilities or items, it can't make more than one melee or ranged attack during its turn. If the creature attempts to cast a power with a casting time of 1 action, roll a d20. On an 11 or higher, the power doesn't take effect until the creature's next turn, and the creature must use its action on that turn to complete the power. If it can't, the power is wasted. The creature makes another **Wisdom saving throw** at the end of its turn. On a successful save, the effect ends.

ANIMATE WEAPON

2nd-level universal power

Prerequisite: Force Disarm

Casting Time: 1 bonus action

Range: 60 feet

Duration: 1 minute

You select a melee weapon you wield, or one melee weapon within range that is not worn or carried by a conscious creature, and use the Force to cause it to levitate, acting as an extension of your will for the duration or until you cast this power again. When you use this power, you can cause the weapon to move up to 20 feet and make a melee force attack against a creature within 5 feet of it. On a hit, the target takes 1d8 + your forcecasting ability modifier damage. The type is of the normal damage dealt by the weapon. While the weapon is animated, on each of your turns you can use a bonus action to move the weapon up to 20 feet and repeat the attack against a creature within 5 feet of it. At any time, you can end this force power to return the animated weapon to your hand. An enemy can attempt to gain control of the weapon by making a Strength (Athletics) check against your force save DC. On a success, the creature gains control of the weapon and the power ends.

Force Potency. When you cast this power using a force slot of 3rd level or higher, the weapon's damage increases by 1d8 for every two slot levels above 2nd.

Whenever you or a friendly creature within your meditation makes an attack roll or a saving throw, they can roll a d4 and add the number rolled to the attack roll or saving throw. Whenever a hostile creature starts enters your meditation or starts its turn there, it must make a **Charisma saving throw**. - While cursed, the target has disadvantage on attack rolls against you.
- While cursed, the target must make a Wisdom saving throw at the start of each of its turns. If it fails, it wastes its action that turn doing nothing.
- While the target is cursed, your attacks and powers deal an extra 1d8 necrotic damage to the target.

A remove curse power ends this effect. At the DM's option, you may choose an alternative curse effect, but it should be no more powerful than those described above. The DM has final say on such a curse's effect.

A creature can choose to fail this saving throw if it wishes. If a creature fails its saving throw, choose one of the following two effects.

- You can suppress any effect causing a target to be charmed or frightened. When this power ends, any suppressed effect resumes, provided that its duration has not expired in the meantime.
- You can make a target indifferent about creatures of your choice that it is hostile toward. This indifference ends if the target is attacked or harmed by a power or if it witnesses any of its friends being harmed.

Roll 5d8; the total is how many hit points of creatures this power can affect. Creatures within 20 feet of a point you choose are affected in order of their current hit points. Starting with the creature that has the lowest current hit points, each creature affected by this power falls unconscious. If the power ends, the sleeper takes damage, or someone uses an action wake the sleeper, they will be awoken. COERCE MIND

Casting Time: 1 action

Range: 30 feet

Duration: Concentration, up to 8 hours

You suggest a course of activity (limited to a sentence or two) and influence with the Force a creature you can see within range that can hear and understand you. Creatures that can't be charmed are immune to this effect. The suggestion must be worded in such a manner as to make the course of action sound reasonable. Asking the creature to harm itself automatically negates the effect of the power. The target must make a **Wisdom saving throw**. On a failed save, it pursues the course of action you described to the best of its ability. The suggested course of action can continue for the entire duration. If the suggested activity can be completed in a shorter time, the power ends when the subject finishes what it was asked to do. You can also specify conditions that will trigger a special activity during the duration. For example, you might suggest that a soldier give her speeder to the first vagrant she meets. If the condition isn't met before the power expires, the activity isn't performed. If you or any of your companions damage the target, the power ends.

This power has no effect on droids or constructs.

Duration: Instantaneous

Choose a point you can see on the ground within range. A fountain of churned earth and stone erupts in a 20-foot cube centered on that point. Each creature in that area must make a **Dexterity saving throw**. A creature takes 3d12 kinetic damage on a failed save, or half as much damage on a successful one. Additionally, the ground in that area becomes difficult terrain until cleared. Each 5-foot-square portion of the area requires at least 1 minute to clear by hand.

Force Potency. When you cast this power using a force slot of 2nd level or higher, you can target one additional creature for each slot level above 1st.

DANGER SENSE

2nd-level universal power

- **Peace**, for results which are not dangerous
- **Danger**, for results which are dangerous but perhaps still worth the danger
- **Ruin**, for results which are certain to end in death or tragedy

The power doesn't take into account any possible circumstances that might change the outcome, such as the use of additional powers or the loss or gain of a companion. If you use this power two or more times before completing your next long rest, there is a cumulative 25 percent chance for each casting after the first that you get a neutral result regardless of the actual outcome.

DARK SHEAR

2nd-level dark side power

Casting Time: 1 bonus action

Range: Self

Duration: Concentration, up to 1 minute

You create a weapon of imperceptible Force energy that lasts until the power ends. It counts as a simple lightweapon with which you are proficient. It deals 2d6 psychic damage, and has the finesse, light, and thrown properties (range 20/60). When you attack while within dim light or darkness, you have advantage. If you drop the weapon or throw it, it disappears at the end of the turn. While the power lasts, you can use a bonus action to make the weapon reappear in your hand.

2nd-level dark side power

Casting Time: 1 action

Duration: Concentration, up to 10 minutes

Darkness spreads from a point you choose within range to fill a 15-foot-radius sphere until the power ends. The darkness spreads around corners. A creature with darkvision can't see through this darkness, and unenhanced light can't illuminate it.

If the point you choose is on an object you are holding or one that isn't being worn or carried, the darkness comes from the object and moves with it. Completely covering the source of the darkness with an opaque object blocks the darkness.

If this power's area overlaps with light created by a 2nd-level power or lower, this power and the light are dispelled.

DENOUNCE

At-will dark side power

Casting Time: 1 action

Range: 30 feet

Duration: Concentration, up to 1 minute

At the beginning of each of its turns, the droid takes energy damage equal to your forcecasting ability modifier and then repeats this saving throw. On a success, the power ends on the target.

DISPERSE FORCE

1st-level universal power

Prerequisite: Saber Ward

Casting Time: 1 reaction*

Range: Self

Duration: 1 round

***which you take when you take cold, energy, fire, ion, lightning, or sonic damage**

This power absorbs damage from incoming energy attacks, lessening its effect on you and distributing it throughout your body. You have resistance to the triggering damage type until the start of your next turn. Also, you gain 5 temporary hit points to potentially absorb the attack. These temporary hit points last until the start of your next turn.

Force Potency. When you cast this power using a force slot of 2nd level or higher, the temporary hit points increases by 5 for each slot level above 1st.

DOMINATE BEAST

A beast you can see must succeed on a **Wisdom save** or be charmed. If you or your companions are fighting it, it has advantage on this saving throw. While it's charmed, you have a telepathic link to it if you're on the same planet. You can use this link to issue commands while you are conscious, no action required, which it does its best to obey. You can specify a simple and general course of action. If it completes the order and doesn't receive further orders, it focuses on defending itself. You can use your action to take total control of the target. Until the end of your next turn, the beast takes only the actions you decide and nothing you don't allow it to. You can also have the beast use a reaction, but this takes your reaction as well. If the beast takes damage, it makes another **Wisdom save**. On a success, the power ends.

Force Potency. When you cast this power using a 5th-level force slot, the duration is up to 10 minutes. At a 6th-level slot, the duration is up to 1 hour. At a slot of 7th or higher, the duration is up to 8 hours.

DOMINATE MIND

5th-level dark side power

Prerequisite: Dominate Beast

Casting Time: 1 action

Range: 60 feet

Duration: Concentration, up to 1 minute

You attempt to beguile a humanoid that you can see within range. It must succeed on a **Wisdom saving throw** or be charmed by you for the duration. If you or creatures that are friendly to you are fighting it, it has advantage on the saving throw. While the target is charmed, you have a telepathic link with it as long as you are within 1 mile of it. You can use this telepathic link to issue commands to the creature while you are conscious (no action required), which it does its best to obey. You can specify a simple and general course of action, such as "Attack that creature," "Run over there," or "Fetch that object." If the creature completes the order and doesn't receive further direction from you, it defends and preserves itself to the best of its ability. You can use your action to take total and precise control of the target. Until the end of your next turn, the creature takes only the actions you choose, and doesn't do anything that you don't allow it to do. During this time you can also cause the creature to use a reaction, but this requires you to use your own reaction as well. Each time the target takes damage, it makes a new **Wisdom saving throw** against the power. If the saving throw succeeds, the power ends. This power has no effect on droids or constructs.

Force Potency. When you cast this power using a 6th-level force slot, the duration is 10 minutes. When you use a 7th-level force slot, the duration is 1 hour. When you use a force slot of 8th level or higher, the duration is 8 hours.

DOMINATE MONSTER

8th-level dark side power

If you or creatures that are friendly to you are fighting it, it has advantage on the saving throw. While the creature is charmed, you have a telepathic link with it as long as you are within 1 mile of it. You can use this telepathic link to issue commands to the creature while you are conscious (no action required), which it does its best to obey. You can specify a simple and general course of action, such as "Attack that creature," "Run over there," or "Fetch that object." If the creature completes the order and doesn't receive further direction from you, it defends and preserves itself to the best of its ability. You can use your action to take total and precise control of the target. Until the end of your next turn, the creature takes only the actions you choose, and doesn't do anything that you don't allow it to do. During this time, you can also cause the creature to use a reaction, but this requires you to use your own reaction as well. Each time the target takes damage, it makes a new **Wisdom saving throw** against the power. If the saving throw succeeds, the power ends.

Force Potency. When you cast this power with a 9th level force slot, the duration is concentration, up to 8 hours.

At the end of each of the target's turns, it can make a **Constitution saving throw** against the power. On a success, the power ends.

Force Potency. When you cast this power using a force slot of 3rd level or higher, the damage increases by 1d6 for each slot level above 2nd.

EARTHQUAKE (1 of 2)

8th-level universal power

Prerequisite: Eruption

Casting Time: 1 action

Range: 500 feet (100-foot radius)

Duration: Concentration, up to 1 minute

You create a seismic disturbance at a point on the ground that you can see within range. For the duration, an intense tremor rips through the ground in a 100-foot-radius circle centered on that point and shakes creatures and structures in contact with the ground in that area. The ground in the area becomes difficult terrain. Each creature on the ground that is concentrating must make a **Constitution saving throw**. On a failed save, the creature's concentration is broken. When you cast this power and at the end of each turn you spend concentrating on it, each creature on the ground in the area must make a **Dexterity saving throw**. On a failed save, the creature is knocked prone. This power can have additional effects depending on the terrain in the area, as determined by the DM.

Fissures. Fissures open throughout the power's area at the start of your next turn after you cast the power. A total of 1d6 such fissures open in locations chosen by the DM. Each is 1d10 x 10 feet deep, 10 feet wide, and extends from one edge of the power's area to the opposite side.

EARTHQUAKE (2 of 2)

8th-level universal power

Prerequisite: Eruption

Casting Time: 1 action

Range: 500 feet (100-foot radius)

Duration: Concentration, up to 1 minute

A creature standing on a spot where a fissure opens must succeed on a **Dexterity saving throw** or fall in. A creature that successfully saves moves with the fissure's edge as it opens. A fissure that opens beneath a structure causes it to automatically collapse (see below).

Structures. The tremor deals 50 kinetic damage to any structure in contact with the ground in the area when you cast the power and at the start of each of your turns until the power ends. If a structure drops to 0 hit points, it collapses and potentially damages nearby creatures. A creature within half the distance of a structure's height must make a **Dexterity saving throw**. On a failed save, the creature takes 5d6 kinetic damage, is knocked prone, and is buried in the rubble, requiring a DC 20 Strength (Athletics) check as an action to escape. The DM can adjust the DC higher or lower, depending on the nature of the rubble. On a successful save, the creature takes half as much damage and doesn't fall prone or become buried.

ENFEEBLE

At-will dark side power

Casting Time: 1 action

Range: 60 feet

Duration: Instantaneous

Dark energy courses from your hand at a creature within range. The target must succeed on a **Wisdom saving throw**.

If it's is missing any hit points, it takes 1d12 necrotic damage. Otherwise, it takes 1d8.

The power's damage increases by one die when you reach 5th, 11th, and 17th level.

ERUPTION

6th-level universal power

Prerequisite: Convulsion

Casting Time: 1 action

Range: 120 feet

Duration: Instantaneous

You cause up to six pillars of stone to burst from places on the ground that you can see within range. Each pillar is a cylinder that has a diameter of 5 feet and a height of up to 30 feet. The ground where a pillar appears must be wide enough for its diameter, and you can target the ground under a creature if that creature is Medium or smaller. Each pillar has AC 5 and 30 hit points. When reduced to 0 hit points, a pillar crumbles into rubble, which creates an area of difficult terrain with a 10-foot radius that lasts until the rubble is cleared. Each 5-foot-diameter portion of the area requires at least 1 minute to clear by hand. If a pillar is created under a creature, that creature must succeed on a **Dexterity saving throw** or be lifted by the pillar. A creature can choose to fail the save. If a pillar is prevented from reaching its full height because of a ceiling or other obstacle, a creature on the pillar takes 6d6 kinetic damage and is restrained, pinched between the pillar and the obstacle. The restrained creature can use an action to make a Strength or Dexterity check (the creature's choice) against the power's save DC. On a success, the creature is no longer restrained and must either move off the pillar or fall off it. **Force Potency.** When you cast this power using a force slot of 7th level or higher, you can create two additional pillars for each slot level above 6th.

FORCE MASK

1st-level universal power

Prerequisite: Mind Trick

Casting Time: 1 action

Range: Self

Duration: 1 hour

Until the power ends or you use an action to dismiss it, you can disguise yourself through use of the Force in many ways. You can appear to be shorter or taller by about a foot and change the appearance of your body and weight, but you cannot change the basic structure of your body. This effect can include your clothes, weapons, and other belongings on your person. This effect is only visual, so any sort of physical contact will only interact with the real size and shape of you. This power has no effect on droids or constructs.

7th-level universal power

Casting Time: 1 action

Range: Self

Duration: Concentration, up to 1 day

You create an illusory copy of yourself that lasts for the duration. The copy can appear at any location that you have seen before, regardless of intervening obstacles. The illusion looks and sounds like you but is intangible. If the illusion takes any damage, it disappears, and the power ends. You can use your action to move this illusion up to twice your speed, and make it gesture, speak, and behave in whatever way you choose. It mimics your mannerisms perfectly. You can see through its eyes and hear through its ears as if you were in its space. On your turn as a bonus action, you can switch from using its senses to using your own, or back again. While you are using its senses, you are blinded and deafened in regard to your own surroundings. Physical interaction with the image reveals it to be an illusion, because things can pass through it. A creature that uses its action to examine the image can determine that it is an illusion with a successful Intelligence (Investigation) check against your force save DC. If a creature discerns the illusion for what it is, the creature can see through the image, and any noise it makes sounds hollow to the creature.

You gain the following benefits:

- Living things glow with the power of the Force. Those with an affinity for the light side glow blue, those with an affinity for the dark side glow red, and those with no attunement to either side of the Force glow yellow. How bright they glow is determined by how strong their connection to the Force is.
- You gain blindsight to 30 feet.
- You have advantage on Wisdom (Perception) checks that rely on sight against living targets within 30 feet.

FORCE STORM

9th-level dark side power

Prerequisite: Force Lightning Cone

Casting Time: 1 action

Range: 150 feet (60-foot cylinder)

Whenever a creature enters the storm or starts its turn there, it must make a **Dexterity saving throw**. On a failed save, it takes 30d6 lightning damage or half as much as a successful one. The power damages objects in the area and ignites flammable objects that aren't being worn or carried.

FORCE SUPPRESSION

You imbue your weapon with the purifying light of the Force. As part of the action used to cast this power, you must make a melee attack with a weapon against one creature within the power's range, otherwise the power fails. On a hit, the target suffers the attack's normal effects, and it becomes wreathed in a glowing barrier of force energy until the start of your next turn. If the target willingly moves before then, it immediately takes 1d8 force damage, and the power ends.

This power's damage increases when you reach higher levels. At 5th level, the melee attack deals an extra 1d8 force damage to the target, and the damage the target takes for moving increases to 2d8. Both damage rolls increase by 1d8 at 11th level and 17th level.

HALLUCINATION (1 of 2)

2nd-level dark side power

Casting Time: 1 action

Range: 60 feet

Duration: Concentration, up to 1 minute

You craft a dangerous illusion in the mind of a creature that you can see within range. The target must make a **Wisdom saving throw**. On a failed save, you create a phantasmal object, creature, or other visible phenomenon of your choice that is no larger than a 10-foot cube and that is perceivable only to the target for the duration. This power has no effect on droids or constructs.

The hallucination includes sound, temperature, and other stimuli, also evident only to the creature. The target can use its action to examine the hallucination with an Intelligence (Investigation) check against your force power save DC. If the check succeeds, the target realizes that the hallucination is an illusion, and the power ends. While a target is affected by the power, the target treats the hallucination as if it were real. The target rationalizes any illogical outcomes from interacting with the hallucination. For example, a target attempting to walk across a phantasmal bridge that spans a chasm falls once it steps onto the bridge.

HALLUCINATION (2 of 2)

2nd-level dark side power

Casting Time: 1 action

Range: 60 feet

Duration: Concentration, up to 1 minute

If the target survives the fall, it still believes that the bridge exists and comes up with some other explanation for its fall - it was pushed, it slipped, or a strong wind might have knocked it off. An affected target is so convinced of the hallucination's reality that it can even take damage from the illusion. A hallucination created to appear as a creature can attack the target. Similarly, a hallucination created to appear as fire, a pool of acid, or lava can burn the target. Each round on your turn, the hallucination can deal 1d6 psychic damage to the target if it is in the hallucination's area or within 5 feet of the hallucination, provided that the illusion is of a creature or hazard that could logically deal damage, such as by attacking. The target perceives the damage as a type appropriate to the illusion.

Force Potency. When you cast this power using a force power slot of 3rd level or higher, the range increases by 20 feet, the image dimensions increase by 5 feet, and you can target one additional creature for every two slot levels above 2nd.

You return a dead creature you touch to life, provided that it has been dead no longer than 1 hour. If the creature's soul is both willing and at liberty to rejoin the body, the creature returns to life with all its hit points.

This power also neutralizes any poisons and cures diseases that affected the creature at the time it died.

This power closes all mortal wounds and restores any missing body parts.

Coming back from the dead is an ordeal. The target takes a -4 penalty to all attack rolls, saving throws, and ability checks. Every time the target finishes a long rest, the penalty is reduced by 1 until it disappears.

INSANITY (1 of 2)

5th-level dark side power

Prerequisite: Horror

Casting Time: 1 action

Range: Self (30-foot sphere)

Duration: Concentration, up to 1 minute

This power assaults and twists creatures' minds, spawning delusions and provoking uncontrolled action. Each creature in a 30-foot radius sphere centered on you must succeed on a **Wisdom saving throw** when you cast this power or be affected by it.

An affected target can't take reactions and must roll a d8 at the start of each of its turns to determine its behavior for that turn. This power has no effect on constructs or droids. Roll **1d8 for Behavior** (see card 2)

Force Potency. When you cast this power using a power slot of 6th level or higher, the radius of the sphere increases by 5 feet for each force slot level above 5th.

INSANITY (2 of 2)

5th-level dark side power

Prerequisite: Horror

Casting Time: 1 action

Range: Self (30-foot sphere)

Duration: Concentration, up to 1 minute

1: The creature uses all its movement to move in a random direction. To determine the direction, roll a d8 and assign a direction to each die face. The creature doesn't take an action this turn.

2-6: The creature doesn't move or take actions this turn.

7-8: The creature uses its action to make a melee attack against a randomly determined creature within its reach. If there is no creature within its reach, the creature does nothing this turn.

At the end of each of its turns, an affected target can make a Wisdom saving throw. If it succeeds, this effect ends for that target.

KILL

9th-level dark side power

Prerequisite: Ruin

Casting Time: 1 action

Range: 60 feet

Duration: Instantaneous

You compel one creature you can see within range to die instantly. If the creature you choose has 100 hit points or fewer, it dies. Otherwise, the power has no effect.

KNIGHT SPEED

3rd-level universal power

Prerequisite: Burst of Speed

Casting Time: 1 action

Range: 30 feet

Duration: Concentration, up to 1 minute

Choose a willing creature that you can see within range. Until the power ends, the target's speed is doubled, it gains a +2 bonus to AC, it has advantage on Dexterity saving throws, and it gains an additional action on each of its turns. That action can be used only to take the Attack (one weapon attack only), Dash, Disengage, Hide, or Use an Object action.

When the power ends, the target can't move or take actions until after its next turn, as a wave of lethargy sweeps over it.

LIGHTNING CHARGE

At-will dark side power

Casting Time: 1 action

Range: 5 feet

Duration: 1 round

You imbue your weapon with debilitating force lightning. As part of the action used to cast this power, you must make a melee attack with a weapon against one creature within the power's range, otherwise the power fails. On a hit, the target suffers the attack's normal effects, and the lightning leaps from the target to a different creature of your choice that you can see within 5 feet of it. The second creature takes lightning damage equal to your forcecasting ability modifier.

This power's damage increases when you reach higher levels. At 5th level, the melee attack deals an extra 1d8 lightning damage to the target, and the lightning damage to the second creature increases to 1d8 + your forcecasting ability modifier. Both damage rolls increase by 1d8 at 11th level and 17th level.

LOCATE CREATURE

4nd-level universal power

Prerequisite: Locate Object

Casting Time: 1 action

Range: Self

Duration: Concentration, up to 1 minute

Describe or name a creature familiar to you. You sense the direction to the creature's location, as long as its within 1000 feet of you. If the creature is in motion, you know the direction of its movement. The power can locate a specific creature known to you or the nearest of a specific kind, as long as you have seen it while within 30 feet of it. If the creature is in a different form, the power doesn't work. This power can't locate a creature if running water at least 10 feet wide blocks a direct path between you and the creature.

LOCATE OBJECT

2nd-level universal power

Prerequisite:

Casting Time: 1 action

Range: Self

Duration: Concentration, up to 1 minute

Describe or name an object. You sense the direction to the object's location, as long as its within 1000 feet of you. If the object is in motion, you know the direction of its movement. The power can locate a specific object known to you, as long as you have seen it while within 30 feet of it. Alternatively, the power can locate the nearest object of a particular kind. This power can't locate an object if any thickness of lead blocks a direct path between you and the object.

MADDENING DARKNESS

8th-level dark side power

Prerequisite: Shroud of Darkness

Casting Time: 1 action

Range: 150 feet (60-foot radius)

Duration: Concentration, up to 10 minutes

Terrifying darkness spreads from a point you choose within range to fill a 60-foot radius sphere until the power ends. The darkness spreads around corners. A creature with darkvision can't see through this darkness. Unenhanced light, as well as light created by powers of 8th level or lower, can't illuminate the area. Shrieks, gibbering, and mad laughter can be heard within the sphere. Whenever a creature starts its turn in the sphere, it must make a **Wisdom saving throw**, taking 8d8 psychic damage on a failed save, or half as much damage on a successful one.

MASS ANIMATION (1 of 2)

5th-level universal power

Prerequisite: Animate Weapon

Casting Time: 1 action

Range: 120 feet

Duration: Concentration, up to 1 minute

You snag several objects using the force and whip them into the air around you, controlling them to attack at your command. Choose up to ten unenhanced objects within range that are not being worn or carried. Medium targets count as two objects, Large targets count as four objects, Huge targets count as eight objects. You can't control any object larger than Huge. Each object animates and hovers near you, remaining within 100 feet of you for the duration. An animated object behaves as though it is was a construct, with AC, hit points, and attacks determined by its size, and a flying speed of 30 feet.

Force Potency. If you cast this power using a force slot of 6th level or higher, you can animate two additional objects for each slot level above 5th.

MASS ANIMATION (2 of 2)

5th-level universal power

Prerequisite: Animate Weapon

Casting Time: 1 action

Range: 120 feet

Duration: Concentration, up to 1 minute

As a bonus action, you can mentally direct any object controlled by this power. If you control multiple objects, you can command any or all of them at the same time. You decide what action the object will take and where it will move. The objects act at the end of your turn. If you command an object to attack, it can make a single melee attack against a creature within 5 feet of it. It makes a slam attack with an attack bonus and kinetic damage determined by its size.

Size	HP	AC	Attack
Tiny	20	16	+6 to hit, 1d4 + 3 dam
Small	25	15	+6 to hit, 1d8 + 2 dam
Medium	40	13	+5 to hit, 2d6 + 1 dam
Large	50	10	+6 to hit, 2d10 + 2 dam
Huge	80	10	+8 to hit, 2d12 + 4 dam

MASS COERCE MIND (1 of 2)

6th-level universal power

Prerequisite: Coerce Mind

Casting Time: 1 action

Range: 60 feet

Duration: 24 hours

You suggest a course of activity (limited to a sentence or two) and influence with the Force up to twelve creatures of your choice that you can see within range and that can hear and understand you. Creatures that can't be charmed are immune to this effect. The suggestion must be worded in such a manner as to make the course of action sound reasonable. Asking the creature to harm itself automatically negates the effect of the power.

Each target must make a **Wisdom saving throw**. On a failed save, it pursues the course of action you described to the best of its ability. The suggested course of action can continue for the entire duration. If the suggested activity can be completed in a shorter time, the power ends when the subject finishes what it was asked to do.

MASS COERCE MIND (2 of 2)

6th-level universal power

Prerequisite: Coerce Mind

Casting Time: 1 action

Range: 60 feet

Duration: 24 hours

You can also specify conditions that will trigger a special activity during the duration. For example, you might suggest that a group of soldiers give all their money to the first beggar they meet. If the condition isn't met before the power ends, the activity isn't performed. If you or any of your companions damage a creature affected by this power, the power ends for that creature. This power has no effect on droids or constructs.

Force Potency. When you cast this power using a 7th-level force slot, the duration is 10 days. When you use an 8th-level force slot, the duration is 30 days. When you use a 9th-level force slot, the duration is a year and a day.

MASS HYSTERIA

9th-level dark side power

Prerequisite: Hysteria

Casting Time: 1 action

Range: 120 feet (30-foot radius)

Duration: Concentration, up to 1 minute

Drawing on the deepest fears of a group of creatures, you create illusory creatures in their minds, manifesting their worst nightmares as an implacable threat visible only to them.

Each creature in a 30-foot-radius sphere is frightened for the duration of the power.

At the end of each of the frightened creature's turns, it must succeed on a **Wisdom saving throw** or take 5d10 psychic damage. On a successful save, the power ends for that creature. This power has no effect on droids or constructs.

MASTER BATTLE MEDITATION

9th-level universal power

Prerequisite:

Improved Battle Meditation

Casting Time: 1 action

Range: Self (30-foot radius)

Duration: Concentration, up to 1 minute

You exude an aura out to 15 feet that boosts the morale and overall battle prowess you and your allies while simultaneously reducing the opposition's combat effectiveness by eroding their will to fight.

Whenever you or a friendly creature within your meditation makes an attack roll or a saving throw, they can roll a d8 and add the number rolled to the attack roll or saving throw.

Whenever a hostile creature starts enters your meditation or starts its turn there, it must make a **Charisma saving throw**. On a failed save, it must roll a d8 and subtract the number rolled from each attack roll or saving throw it makes before the end of your next turn. On a successful save, it is immune to this power for 1 day.

MASTER FEEDBACK

9th-level dark side power

Prerequisite: Greater Feedback

Casting Time: 1 action

Range: 90 feet

Duration: Instantaneous

You unleash the power of your mind to blast the intellect of up to ten creatures of your choice that you can see within range. Creatures that have an **Intelligence score of 2 or lower** are unaffected. Each target must make an **Intelligence saving throw**. On a failed save, a target takes 14d6 psychic damage and is stunned. On a successful save, a target takes half as much damage and isn't stunned. A stunned target can make a **Wisdom saving throw** at the end of each of its turns. On a successful save, the stunning effect ends.

MASTER FORCE BARRIER

8th-level light side power

Prerequisite: Improved Force Barrier

Casting Time: 1 action

Range: Self (30-foot radius)

Duration: Concentration, up to 1 minute

This power massively bolsters your allies with toughness and resolve. Creatures of your choice in a 30-foot radius around you when you cast this power gain the following benefits:

- The creature sheds dim light in a 5-foot radius.
- The creature has advantage on all saving throws
- Other creatures have disadvantage on attack rolls against them. When a dark side creature hits them with a melee attack, that creature must make a Constitution saving throw or be blinded until the power ends.

MASTER FORCE IMMUNITY (1 of 2)

8th-level universal power

Prerequisite:

Improved Force Immunity

Casting Time: 1 action

Range: Self (10-foot radius)

Duration: Concentration, up to 1 hour

A 10-foot-radius faintly shimmering barrier surrounds you. Within the sphere, powers can't be cast and enhanced items become mundane. Until the power ends, the sphere moves with you, centered on you. Powers and other enhanced effects are suppressed in the sphere and can't protrude into it. A slot expended to cast a suppressed power is consumed. While an effect is suppressed, it doesn't function, but the time it spends suppressed counts against its duration.

Targeted Effects. Powers and other enhanced effects that target a creature or an object in the sphere have no effect on that target.

Enhanced Areas. The area of another power or enhanced effect, such as force storm, can't extend into the sphere. If the sphere overlaps an enhanced area, the part of the area that is covered by the sphere is suppressed.

Powers. Any active power or other enhanced effect on a creature or an object in the sphere is suppressed while the creature or object is in it.

Enhanced Travel. Teleportation fails to work in the sphere, whether the sphere is the destination or the departure point for such enhanced travel. A portal to another location temporarily closes while in the sphere.

MASTER FORCE IMMUNITY (2 of 2)

8th-level universal power

Prerequisite:

Improved Force Immunity

Casting Time: 1 action

Range: Self (10-foot radius)

Duration: Concentration, up to 1 hour

Enhanced Items. The properties and powers of enhanced items are suppressed in the sphere. For example, a +1 vibrosword in the sphere functions as an unenhanced vibrosword. An enhanced weapon's properties and powers are suppressed if it is used against a target in the sphere or wielded by an attacker in the sphere. If an enhanced weapon or a piece of enhanced ammunition fully leaves the sphere (for example, if you fire an enhanced shot or throw an enhanced saberspear at a target outside the sphere), the enhancement of the item ceases to be suppressed as soon as it exits.

Creatures and Objects. A creature or object summoned or created by powers temporarily winks out of existence in the sphere. Such a creature instantly reappears once the space the creature occupied is no longer within the sphere.

Tech Override/Sever Force. Powers and enhanced effects such as sever force have no effect on the sphere. Likewise, the spheres created by different scrambling field powers don't nullify each other.

MASTER FORCE SCREAM

8th-level dark side power

Prerequisite: Improved Force Scream

Casting Time: 1 action

Range: Self (60-foot radius)

Duration: Instantaneous

You emit a cacophonous scream imbued with the power of the Force. Each creature you choose within 60 feet of you must succeed on a **Constitution saving throw**. On a failed save, a creature takes 6d6 psychic damage, 6d6 sonic damage, is deafened, knocked prone, and blinded for 1 minute. On a successful save, it takes half as much damage and isn't deafened, knocked prone, or blinded by this power. A creature blinded by this power makes another **Constitution saving throw** at the end of each of its turns. On a successful save, it is no longer blinded.

MASTER HEAL

9th-level light side power

Prerequisite: Greater Heal

Casting Time: 1 action

Range: Touch

Duration: Instantaneous

A wave of healing energy washes over the creature you touch. The target regains all its hit points. If the creature is charmed, frightened, paralyzed, or stunned, the condition ends. If the creature is prone, it can use its reaction to stand up. This power has no effect on droids or constructs.

MASTER REVITALIZE

9th-level light side power

Prerequisite: Improved Revitalize

Casting Time: 1 hour

Range: Touch

Duration: Instantaneous

You return a dead creature you touch to life, provided that it has been dead no longer than 1 day. If the creature's soul is both willing and at liberty to rejoin the body, the creature returns to life with all its hit points. This power closes all wounds, neutralizes any poison, cures all diseases, and lifts any curses affecting the creature when it died. The power replaces damaged or missing organs and limbs.

MASTER SPEED

7th-level universal power

Prerequisite: Knight Speed

Casting Time: 1 action

Range: 30 feet

Duration: Concentration, up to 1 minute

Choose up to two willing creatures that you can see within range. Until the power ends, each targets' speed is doubled, they gain a +2 bonus to AC, they have advantage on Dexterity saving throws, and they gain an additional action on each of their turns. That action can be used only to take the Attack (one weapon attack only), Dash, Disengage, Hide, or the Use an Object Action.

When the power ends, each target can't move or take actions until after its next turn, as a wave of lethargy sweeps over it.

Force Potency. When you cast this power using a force slot of 8th-level or higher, you can target one additional creature for each slot level above 7th.

MIND BLANK

8th-level universal power

Prerequisite: Mind Trap

Casting Time: 1 action

Range: Touch

Duration: 24 hours

Until the power ends, one willing creature you touch is immune to psychic and sonic damage, any effect that would sense its emotions or read its thoughts, and the charmed condition. The power foils powers or effects of similar power used to affect the target's mind or to gain information about the target.

MIND SPIKE

2nd-level dark side power

Casting Time: 1 action

Range: 60 feet

Duration: Concentration, up to 1 hour

Choose one creature you can see. The target must make a **Wisdom saving throw**. A creature takes 3d8 psychic damage on a failed save, or half as much damage on a successful one. Additionally, on a failed save, you always know the target's location, but only while the two of you are on the same planet. The target can't become hidden from you, and if it's invisible, it gains no benefits from this condition against you. This power has no effect on droids or constructs.

MIND TRAP

4th-level universal power

Prerequisite: Force Confusion

Casting Time: 1 action

Range: 60 feet

Duration: Concentration, up to 1 minute

You attempt to trap the mind of your target in a psychic cage. The target must make a **Charisma saving throw**. On a failed save, the creature's mind is trapped. It can think, but it can't have any contact with or perceive the outside world. If the creature takes damage, it makes another **Charisma save**. On a success, the power ends. This power has no effect on droids or constructs.

Force Potency. When you cast this power using a force slot of 6th level or higher, after 1 minute of concentration the power's duration becomes 24 hours and it no longer requires your concentration.

MIND TRICK

At-will universal power

Prerequisite:

Casting Time: 1 action

Range: 30 feet

Duration: Concentration, up to 1 minute

Choose a target within range that isn't hostile toward you. The target must make a **Wisdom saving throw**. On a failed save, the target has disadvantage on Wisdom (Perception) and Intelligence (Investigation) checks.

On a successful save, the creature realizes that you tried to use the Force to influence its awareness and becomes hostile toward you. A creature prone to violence might attack you. Another creature might seek retribution in other ways (at the DM's discretion), depending on the nature of your interaction with it. This power has no effect on droids or constructs.

NECROTIC CHARGE

At-will dark side power

Casting Time: 1 action

Range: 5 feet

Duration: 1 round

As part of the action used to cast this power, you must make a melee attack with a weapon against one creature within the power's range, otherwise the power fails. On a hit, the target suffers the attack's normal effects, and you can choose to deal up to 1d8 of necrotic damage, which you suffer as well. This damage can't be reduced or negated in any way.

This power's damage increases when you reach higher levels. At 5th level, the melee attack deals an extra 1d8 necrotic damage to the target, and you can increase the secondary damage to 2d8. Both damage rolls increase by 1d8 at 11th and 17th level.

PHASESTRIKE

1st-level universal power

Casting Time: 1 bonus action

Range: Self

Duration: Concentration, up to 1 minute

Until the power ends, your movement doesn't provoke opportunity attacks.

Once before the power ends, you can give yourself advantage on one weapon attack roll on your turn. That attack deals an extra 1d8 force damage on a hit. Whether you hit or miss, your walking speed increases by 30 feet until the end of that turn.

PHASEWALK

2nd-level universal power

Casting Time: 1 bonus action

Range: Self

Duration: Instantaneous

You teleport up to 30 feet to an unoccupied space that you can see.

PLAGUE

3rd-level dark side power

Prerequisite: Affliction

Casting Time: 1 action

Range: 30 feet (40-foot cube)

Duration: Concentration, up to 1 minute

Choose up to six creatures of your choice in a 40-foot cube within range. Each target must succeed on a **Constitution saving throw** or be affected by this power for the duration.

An affected target's speed is halved, it takes a -2 penalty to AC and Dexterity saving throws, and it can't use reactions. On its turn, it can use either an action or a bonus action, not both. Regardless of the creature's abilities or items, it can't make more than one melee or ranged attack during its turn.

If the creature attempts to cast a power with a casting time of 1 action, roll a d20. On an 11 or higher, the power doesn't take effect until the creature's next turn, and the creature must use its action on that turn to complete the power. If it can't, the power is wasted. A creature affected by this power makes another **Wisdom saving throw** at the end of its turn. On a successful save, the effect ends.

PLANT SURGE

3rd-level light side power

Casting Time: 1 action or 8 hours

Range: 150 feet (100-foot radius)

Duration: Instantaneous

If you cast this power using 1 action, all normal plants in a 100-foot radius centered on a point become overgrown.

Moving through the area spends 4 feet of movement for every 1 foot moved. You can exclude areas of any size within the power's area from being affected.

If you cast this power for **8 hours**, all plants in a **half-mile radius** centered on a point yield twice the normal amount of food when harvested for 1 year.

PRECOGNITION

9th-level universal power

Prerequisite: Danger Sense

Casting Time: 1 minute

Range: Self

Duration: 8 hours

Your mastery of the force gives you a limited ability to see into the immediate future.

For the duration, you can't be surprised and you have advantage on attack rolls, ability checks, and saving throws. Additionally, other creatures have disadvantage on attack rolls against you for the duration.

PROJECT

1st-level light side power

Casting Time: 1 action

Range: 120 feet

Duration: Instantaneous

You lift three piles of debris or small objects from the ground and hurl them. Each pile hits a creature of your choice that you can see within range. The pile deals 1d4+1 force damage to its target. The piles all strike simultaneously and you can direct them to hit one creature or several.

Force Potency. When you cast this power using a force slot of 2nd level or higher, you lift and throw an additional pile of debris for each slot level above 1st.

PSYCHIC CHARGE

At-will dark side power

Casting Time: 1 action

Range: 5 feet

Duration: 1 round

As part of the action used to cast this power, you must make a melee attack with a weapon against one creature within the power's range, otherwise the power fails. On a hit, the target suffers the attack's normal effects, and its mouth is covered by a violet veil until the start of your next turn. If the target willingly speaks before then, it immediately takes 1d8 psychic damage, and the power ends.

This power's damage increases when you reach higher levels. At 5th level, the melee attack deals an extra 1d8 psychic damage to the target, and the damage the target takes for speaking increases to 2d8. Both damage rolls increase by 1d8 at 11th and 17th level.

RAGE

6th-level dark side power

Casting Time: 1 action

Range: Self

Duration: Concentration, up to 10 minutes

You endow yourself with endurance and martial prowess fueled by the Force. Until the power ends, you can't cast powers, and you gain the following benefits:

You gain 50 temporary hit points. If any of these remain when the power ends, they are lost.

- You have advantage on attack rolls that you make with lightweapons and vibroweapons.
- When you hit a target with a weapon attack, that target takes an extra 2d12 force damage.
- You have proficiency with all armor, lightweapons, and vibroweapons.
- You have proficiency in Strength and Constitution saving throws.
- You can attack twice, instead of once, when you take the Attack action on your turn. You ignore this benefit if you already have a feature, like Extra Attack, that gives you extra attacks.

Immediately after the power ends, you must succeed on a DC 15 Constitution saving throw or suffer one level of exhaustion.

REMOVE CURSE

3rd-level light side power

Casting Time: 1 action

Range: Touch

Duration: Instantaneous

At your touch, all curses affecting one creature or object end.

If the object is a cursed enhanced item, its curse remains, but the power breaks its owner's attunement to the object so it can be removed or discarded.

RESCUE

2nd-level universal power

Casting Time: 1 bonus action

Range: 30 feet

Duration: Instantaneous

You pull one willing ally you can see within 30 feet of you to an unoccupied space within 5 feet of you. The target must use their reaction to accept the pull.

RESISTANCE

At-will universal power

Casting Time: 1 action

Range: Touch

Duration: Concentration, up to 1 minute

You touch one willing creature. Once before the power ends, the target can roll a d4 and add the number rolled to one saving throw of its choice. It can roll the die before or after the saving throw. The power then ends.

RESTORATION

2nd-level light side power

Casting Time: 1 action

Range: Touch

Duration: Instantaneous

You touch a creature and end either one disease or one condition afflicting it. The condition can be blinded, deafened, paralyzed, or poisoned.

REVITALIZE

5th-level light side power

Prerequisite: Spare the Dying

Casting Time: 1 minute

Range: Touch

Duration: Instantaneous

You return a dead creature you touch to life, provided that it has been dead no longer than 10 minutes. If the creature's soul is both willing and at liberty to rejoin the body, the creature returns to life with 1 hit point. This power also neutralizes any poisons and cures diseases that affected the creature at the time it died. This power closes all mortal wounds, but it doesn't restore missing body parts. If the creature is lacking body parts or organs integral for its survival—its head, for instance—the power automatically fails.

Coming back from the dead is an ordeal. The target takes a -4 penalty to all attack rolls, saving throws, and ability checks. Every time the target finishes a long rest, the penalty is reduced by 1 until it disappears.

RUIN

7th-level dark side power

Prerequisite: Wound

Casting Time: 1 action

Range: 60 feet

Duration: Instantaneous

You channel the dark side of the Force to desecrate a creature you can see within range, causing waves of intense pain to assail it. If the target has 100 hit points or fewer, it is subject to crippling pain. Otherwise, the power has no effect on it. While the target is affected by crippling pain, any speed it has can be no higher than 10 feet. The target also has disadvantage on attack rolls, ability checks, and saving throws, other than Constitution saving throws. Finally, if the target tries to cast a power, it must first succeed on a **Constitution saving throw**, or the casting fails and the power is wasted. A target suffering this pain can make a **Constitution saving throw** at the end of each of its turns. On a successful save, the pain ends.

SABER REFLECT

At-will universal power

Casting Time: 1 reaction*

Range: Self

Duration: Instantaneous

***which you take in response to being hit by a ranged attack.**

In response to being attacked, you raise your weapon to attempt to deflect. When you use this power, the damage you take from the attack is reduced by 1d6. If you reduce the damage to 0, you're wielding a lightweapon or vibroweapon, and the damage is energy or ion, you can reflect the attack at a target within range as part of the same reaction. Make a ranged force attack at a target you can see. The attack has a normal range of 20 feet and a long range of 60 feet. On a hit, the target takes the triggering attack's normal damage.

The power's damage reduction increases by 1d6 when you reach 5th level (2d6), 11th level (3d6), and 17th level (4d6).

SABER THROW

At-will universal power

Casting Time: 1 action

Range: 30 feet

Duration: Instantaneous

As a part of the action used to cast this power, you must make a ranged force attack with a lightweapon or vibroweapon against one target within the power's range, otherwise the power fails. On a hit, the target takes 1d8 damage of the same type as the weapon's damage. The weapon then immediately returns to your hand. This power can hit multiple targets when you reach higher levels: two targets at 5th level, three targets at 11th level, and four targets at 17th level. Each target must be within 30 feet of the previous target, you must make a separate attack roll for each target, and the last target must be no further than 30 feet away from you. You can not hit the same target twice in succession.

SABER WARD

At-will universal power

Casting Time: 1 action

Range: Self

You take a defensive stance.
Until the end of your next turn, you have resistance against kinetic and energy damage dealt by weapons.

SANCTUARY

1st-level light side power

Casting Time: 1 bonus action

Range: 30 feet

Duration: 1 minute

Until the power ends, any creature who targets the warded creature with an attack, a harmful power, or a hostile action must first make a **Wisdom saving throw**. On a failed save, the creature must choose a new target or lose the attack or power. This power doesn't protect the warded creature from area effects.

If the warded creature makes an attack, casts a power that affects an enemy creature, or takes a hostile action this power ends.

SAP VITALITY

1st-level dark side power

Casting Time: 1 action

Range: Touch

Duration: Instantaneous

Make a melee force attack against a creature you can reach. On a hit, the target takes 3d10 necrotic damage.

SCOURGE

6th-level dark side power

Prerequisite: Plague

Casting Time: 1 action

Range: Self

Duration: Concentration, up to 1 minute

For the power's duration, your eyes become an inky void imbued with dread power. One creature of your choice within 60 feet of you that you can see must succeed on a **Constitution saving throw** or be affected by one of the following effects of your choice for the duration. On each of your turns until the power ends, you can use your action to target another creature but can't target a creature again if it has succeeded on a saving throw against this casting of scourge.

Asleep. The target falls unconscious. It wakes up if it takes any damage or if another creature uses its action to shake the sleeper awake.

Panicked. The target is frightened of you. On each of its turns, the frightened creature must take the Dash action and move away from you by the safest and shortest available route, unless there is nowhere to move. If the target moves to a place at least 60 feet away from you where it can no longer see you, this effect ends.

Sickened. The target has disadvantage on attack rolls and ability checks. At the end of each of its turns, it can make another **Wisdom saving throw**. If it succeeds, the effect ends.
