

MOUNTED BORDERERS

SERVICE RECORD

As the only military arm reporting directly to the Viscount, the duties of the Mounted Borderers are many. They are central to Verbobonc's defense making up the majority of its heavy cavalry. They are responsible for administering justice for many of the small thorps and villages that lie on Verbobonc's borders. In this capacity, they are empowered by the Viscount to actively investigate injustice, pursue those doing wrong, and bring them to justice. Local magistrates and sheriffs often entreat individual Borderers for assistance in local matters of all sizes.
