PRINTING INSTRUCTIONS

The Dog House Gang has provided the maps and accessories needed for use in **TPSA!** The GM can print out and assemble the main flood water map, trailer roof tops, debris and more – with or without a grid. For GMs that prefer a virtual tabletop game experience, we have included maps and accessories in jpg format.

Please refer to the [TPSA_SW_Checklist.pdf](#) for a full list of all the maps and map accessory documents.

Trailer Roof Maps:

This document contains several trailer roof chits for use on the Flood Water map. Place a few strategically each time you play a scenario. Pick and choose the trailer roofs you want to use.

- [TPSA_Trailer_Roofs_GRID.pdf](#) - Suitable for printing and assembling for tabletop gaming, with a grid.
- [TPSA_Trailer_Roofs_NO_GRID.pdf](#) - Same as above, without a grid.
- [TPSA_Trailer_Roofs_GRID*.jpg](#) - Suitable for use in VTT gaming environment, with a grid.
- [TPSA_Trailer_Roofs_NO_GRID*.jpg](#) - Suitable for use in VTT gaming environment, without a grid.

How to Print

The **TPSA!** maps and accessories pdfs are built in layers, allowing the GM to print the cards in different ways, with a simple toggle to include or remove elements on the page before clicking that alluring print button.

- Background layer – toggle off to remove page borders and background color.
- Text layer – toggle off to remove all text from display.
- Maps layer – toggle off to remove maps from the pages (*Ed. note: trailers with cloaking devices?*)

We recommend using a common card stock – any typical card stock used for scrapbooking will do (such as 65 lb cover weight). But a 'Parker always has options: print on regular paper and then use cardboard from a pizza box, a twelve-pack carton, or other scraps you have laying around . . . just paste, staple or duct tape the printed paper to the cardboard pieces.

- Print out the trailer roof chits, as needed for the game scenario, at 100% each.
