

Guardian Population Support Vehicle

Branson Hagerty (Blackjack's Shadowrun Page <http://shadowrun.html.com/users/blackjack/>) Posted July 13, 1998

A riot control vehicle in disguise, the Guardian is designed for use in B or higher neighborhoods where an militaristic looking CityMaster would be unwelcome by the local residents. The bus sized Guardian has no visible weapons, sports a more high tech appearance, and utilizes an increased amount of armored glass in order to make its look more people friendly. However, hidden in its interior are enough weapons and armor (much of the tinted glass is merely a façade) to withstand quite a beating.

Handling: 4/8

Speed: 30/120

Body: 4

Armor: 12

Signature: 3

Autopilot: 2

Sensors: 2

Seating: Twin Bucket + 4 Folding Bench
