# STORMSWORD SUPER-HEAVY TANK

POINTS: 450

The Stormsword was originally a field conversion of the Shadowsword, using a salvaged chassis with a new weapon replacing the volcano cannon. Christened the Stormsword by troops, this super-heavy tank carries a large Stormsword cannon. Used for street fighting and siege warfare, the tank excels at close quarters.

The siege gun fires huge rocket-propelled siege shells, each weighing in excess of 180kg, with enough explosive power to flatten a building in a single shot. In addition to its main weapon, the Stormsword is also formidably equipped with secondary weapons for combat in the close confines of city streets.

Armoured engine casing

Stormsword cannon

Sponson-mounted lascannon and twin-linked heavy bolters

Hull-mounted twin-linked heavy bolters

High density armour plating

Size Comparison.

UNIT: 1 Stormsword

TYPE: Super-heavy tank

STRUCTURE POINTS: 3

	ARMOUR		
BS	Front	Side	Rear
3	14	13	12

WEAPON	RANGE	STR	AP	SPECIAL
Stormsword cannon	36"	10	1	Ordnance 1, 10" Blast, Primary weapon No cover saves allowed
Lascannon	48"	9	2	Heavy 1
Heavy bolter	36"	5	4	Heavy 3
Heavy flamer	Template	5	4	Assault 1

OPTIONS: A Stormsword may be given the following upgrades from Codex: Imperial Guard: hunter-killer missile, pintle-mounted heavy stubber, pintle-mounted storm bolter.

A Stormsword may replace both heavy flamers on its sponsons with lascannons at +20 points.

A Stormsword may replace its hull-mounted heavy bolter with a twin-linked hull-mounted heavy bolter at +5 points.

A Stormsword may replace its two side sponsons with armour plates, increasing its side armour to 14 at no extra cost. It may instead add two extra sponsons, each with one lascannon and one twin-linked heavy flamer or heavy bolter for +100 points.

A Stormsword may have the following upgrade at +25 points:

Command Tank. A high ranking officer is using the Stormsword as a mobile HQ. All Imperial Guard units within 24" of a Stormsword Command Tank may re-roll failed Morale checks.
